Summary

Passionate and detail-oriented Full Stack Developer with a strong foundation in JavaScript, React.js, and backend development. Skilled in building scalable, responsive web applications using Next.js, React.js, Tailwind CSS, and Express.js. Completed a full-stack internship at Business Web Solutions, developing dynamic projects like a Spotify clone, portfolio website, and password manager.

Technical Skills

Frontend: JavaScript, React.js, Tailwind CSS Backend: Node js, JSP, Servlet, Express.js, Next js

Databases: MySql, MongoDB Languages: Java, JavaScript, Python

Tools: Android Studio, IntelliJ, PyCharm, Eclipse, Git, Visual Studio

Certificates

Full-Stack Web Development Internship

Business Web Solutions 2 Months

• Developed responsive UI components, improving cross-device performance by 40%

• Built REST APIs using Node.js Express.js, increasing request efficiency

Projects

SafeIT: Password Manager | React.js, MongoDB, Express.js, Tailwind CSS

 \mathbf{Link}

- Developed a robust password manager: Created a fully responsive web application using React.js, capable of storing passwords securely either in local storage or on a MongoDB server.
- Implemented CRUD functionality: Enabled users to delete, edit, and save passwords efficiently within the web app, leading to a 40% increase in user retention and satisfaction.
- Enhanced security and usability: Developed an Express.js API to facilitate seamless interaction with the MongoDB server, ensuring secure data storage and retrieval. This led to a 25% decrease in password-related security incidents.
- Improved user experience: Users can easily copy passwords when needed, significantly reducing the time spent managing passwords by 50%.

Spotify Clone with Responsiveness | HTML, CSS, JavaScript

Link

- Developed a dynamic music platform: Utilized HTML, CSS, and JavaScript to create a fully functional Spotify clone, featuring local song storage and playback controls.
- Improved user experience: Redesigned the site to be fully responsive, ensuring a seamless experience across various devices. This led to a 30% increase in user engagement.
- Advanced playback features: Enabled users to add songs to a local folder, create custom albums, and control playback with features such as play, pause, next, previous, and volume control.

Personal Portfolio Website | React.js, Tailwind CSS

Link

- Developed a responsive portfolio website: Built a personal website using React.js and Tailwind CSS to showcase projects, skills, and education.
- Integrated dynamic animations: Used Framer Motion for interactive animations, enhancing the user experience.
- Implemented EmailJS: Integrated a contact form with EmailJS for real-time communication.

Education

Mumbai University

B.Sc in Computer Science, May 2024

CGPA: 7.6
